

EcoMod Modeling School

Macroeconometric Modeling using TROLL

COURSE OBJECTIVES

The course will introduce all the basic tools for constructing and implementing large-scale multi-national and dynamic intertemporal macroeconometric models for policy analysis. By the end of the course the participants will have acquired detailed knowledge of and extensive hands-on experience in:

- the use of TROLL,
- the structure of dynamic macroeconometric models,
- building the database for such models,
- introducing forward-looking expectations,
- estimating and calibrating the models,
- implementing the model on the computer using the TROLL software,
- formulating scenarios and running policy simulations,
- reporting and interpreting the results.

AUDIENCE

This course is especially tailored for staff involved in forecasting and policy analysis in the central banks, ministries and international institutions.

The course will use the MULTIMOD model of the International Monetary Fund and the QUEST model of the European Commission.

FEES

The fee for the course is US\$2,760. This includes course materials, lectures, computer labs, morning and afternoon coffee breaks, receptions. University students and staff get a discount of 25 percent of the above mentioned amount. Please include a photocopy of your student or staff card.

REGISTRATION

For registration and further information, please contact Theresa Leary (Theresa.Leary@EcoMod.net) or visit www.ecomod.net

THE ECOMOD DIFFERENCE

EcoMod's Modeling School offers the world's leading professional training programs in general equilibrium, macroeconometric and financial modeling.

- Public programs are offered three times a year - in Asia, Europe and America.
- Online courses accept registrations at any time
- Custom programs are individually tailored to suit specific institutional needs.

ACTIVE LEARNING MODEL

The EcoMod learning model is an active process. Intensive hands-on sessions offer a step-by-step approach to learning modeling and software. Participants benefit from individual guidance from expert instructors.

DECADES OF EXPERIENCE

EcoMod Modeling School is at the forefront of the ever-evolving practice of policy modeling. All our faculty have extensive practical experience as leaders of modeling departments in major institutions, software developers, prominent academics, advisors to governments and business. The Head of the Modeling Division of the IMF, and the Head of the Econometric Modeling Unit of the European Commission are members of our faculty.

PROFESSIONAL NETWORK

EcoMod Modeling School has the largest alumni network of modelers in the world with members from more than 100 countries and 400 institutions. Participants from international and national institutions, central banks, government agencies, universities, companies, and individual economists have benefitted from our intensive hands-on courses.
